## AFFAIRS IN BROOKLYN.

AFTER THE LOUISIANA LOTTERY. POSTOFFICE AUTHORITIES MAKE AN IMPORTANT DISCOVERY AND AN ARREST.

The postoffice authorities have made an arrest in Breoklyn in connection with the mailing of lottery circulars, which it is believed will lead to important results. It has been believed for some time that the mails were being used by the promoters of the Louis-iana Lottery, although the law strictly forbids it, and New-York and Massachusetts were found to be the chief places of operation. A few months ago it was learned that the announcements of the monthly drawings were telegraphed to Boston, and there printed in the form of a circular, and the circulars were put in scaled envelopes and addressed and then forwarded to New-York for mailing by an agent. About six months ago the mailing of these circulars was transferred from New-York to Brooklyn, and the Brooklyn postoffice was watched. It was found that on the Saturday after the second Tuesday in each month about 10,000 of the scaled circulars were deposited in the mails in Brooklyn. It was decided to look them over in the hope of finding one unsealed which could be read, and when the circulars were put in on Saturday night they were carefully examined. None in the first lot of 3,000, which were handed in by a shabbily-dressed boy, were unscaled, but in a second lot two were found open. They gave particulars of the Louisiana lottery drawing and stated that after January 1, 1894, the drawings would be at Puerto p. Cortes, Honduras, under a contract with the Govern-

The boy who posted the circulars was detained while the letters were examined, and he was at once arrested. He gave the name of James Kelly, of No. 13 Hennessey Place, and said a man named Smith gave him \$1 to post the letters. A warrant was issued by United States Commissioner Morle on Sunday for the arrest of Smith, but it was believed he had gone to Boston, and the postofice officials started after him. The circulars were printed in Boston.

TO AMEND THE FRANCHISE GRANTS. AT MAYOR BOODY'S SUGGESTION THE ALDER-

MEN WILL HOLD A SPECIAL MEETING. Mayor Boody sent a communication to the Board Mayor Boody sent a communication to the Board of Aldermen yesterday in reference to the granting of franchises to street railway companies, setting forth that it was the subject of current report that in granting franchises last week the Board believed that it was within the province of the Mayor to determine what pecuniary consideration should be received by the city for such franchises, and to make specific terms in regard to payment. He stated that the Corporation Counsel advised him that all such powers and duties rested with the Board of Aldermen. The repeal of the Cantor act left it with landed at this port. Aldermen. The repeal of the Cantor act left it with the Board to make all needful provisions in the granting of street railway franchises. These should not only protect the citizens, but should secure

The Mayor added that it was well understood that the street railway companies applying for the franchises covered by the resolutions in question recognized the justice of their position, and were ready to pay large sums for the franchises, and that while he believed the Railroad Tax bill now before the Legislature represented the right principle, so far as it secured to the city ndequate compensation for the use of the streets by the railway companies, nothing could be clearer than that if such a principle was not adopted by the Aldermen in granting the franchises referred to, it was clearly a duty to make such provision for cash compensation as should seem just to the city. He recommended that the resolutions be amended so as to cover these suggestions, and that a special meeting be held for the purpose before the time when the Mayor must pass upon the resolutions in question.

The communication was ordered on file. A resolution to hold a special meeting was first laid on the table and afterward taken up and adopted. The meeting will be held Thursday evening.

MISS L. TOWNSEND ILL WITH TYPHUS.

SHE IS WELL KNOWN IN PROTESTANT EPISCOPAL CHURCH CIRCLES.

Miss Letitia Townsend, a woman well known in Protestant Episcopal Charch circles, was removed from St. Luke's Hospital to North Brother Island yesterday, suffering from typhus fever. She is forty-nine years old. Her home formerly was in Glen Cove. Miss Townsend is the general secretary of the Girls' Friendly Society of the Protestant HIGH WATER TO-DAY. Episcopal Church in America. The society is patterned after the English society of the same name and there is a branch organization of girls in nearly every church of the denomination in this country. Her duties as secretary placed her in communication with all of the churches and her correspondence was

In December Miss Townsend's mother died in Glen Cove, after a long illness. The task of nuring the patient had wasted Miss Townsend's strength and she was advised to take a rest. By the advice man in Atlantic City, Miss Townsend came to New-York and occupied a room in Saint Anna's Home, at No. 428 West Twentieth st., occupied by the Society for the Home Study of the Holy Scriptures. There the Girls' Friendly Society.

She went to visit her father at Glen Cove on Easter sunday, and it was supposed that she caught cold. After her return to the city she became III. A physician who was called to attend her thought she was suffering from influenza, but she continued to have a high fever and on Wednesday of last week she was sent to St. Luke's Hospital. There her illness was diagnosed as typhold fever, and she was placed in a separate room where she could not expose other patients in the lospital to possible contagion. The physicians noticed symptoms of typhus fever on Sunday and an expert from the Bureau of Contagious Diseases confirmed their suspicious yester-by morning. Miss Townsend was accordingly removed to North Brother Island. The room which she had occupied at the hospital was disinfected and the bedding and clothing were destroyed. Similar pre-

MANHATTAN WILL PLEAD POVERTY.

THE RAPID TRANSIT COMMISSION PROMISES TO HOLD TO THE FIVE PER CENT TAX.

Another act in the skilful drama known as the Manhattan Grab" will be played this afteraoon at the home of William Steinway, president of the Rapid Transit Commission. The "star" will be a repre-sentative of the Manhaitan Elevated Railway Company, probably Julien T. Davies, who is expected to strike a dignished, but suave attitude before the members of the commission and repeat his familiar utterances concerning the impoverished condition of the great Manhattan Company. The position to be taken will probably be that the proposed 5 per cantax on the company's net receipts is too great.

Henry Clews when asked by a Tribane reporter yesterday if he thought it was probable that the Manhattan Company would accept the propositions of the commission, said: "The company will probably ask for some substantial concessions from the commission. The Manhattan people object to the 5 per cent tax on the net receipts. The fact of the matter is that they don't want to pay anything for he privileges. They want something for nothing. William Steinway and John H. Starin are firmly

set against granting any further concessions to the Manhattan Company. They have taken the stand that if the company is not willing to accept the valuable privilege offered to it the only consistent thing for the cummission to do will be to lay out two new independent lines of elevated roads and offer the franchises for sale at public nuction. The result of to-day's meeting of the commission will be looked forward to with Interest.

Little could be learned from the members of the Manbattan Extension Committee concerning the prospect of the company's accepting the commission's plans. George J. Gould could not be seen. Samuel sloan and Robert M. Gallaway said that the committee had not yet reached a decision, and they did not care to discuss the subject. All that Russell Sage would say was that the engineers were still engaged in examining the plans for the extensions and calcu-
